

Tony Lennon

About Me:

After receiving my BSc in Information Technology, I have acquired more than 30 years expertise in a variety of organisations across many different commercial sectors. I am now a Director of a small family-run company offering professional MSP services along with my daughter and son-in-law. My areas of specialisation are data protection and systems security.

My Motivation:

The statistics about rape and sexual abuse are shocking. There were 70,330 rapes reported to police for the 12-months ending March 2022. 1 in 4 women have been raped or sexually assaulted as an adult. 1 in 6 children have been sexually abused. This year the Home Office will spend £1 Billion preventing terrorism. In the same year, they will spend less than £10 Million preventing rape.

I want to change the future so that my children and grandchildren don't recognise these statistics. Let's make rape as unacceptable as drink-driving.
